Conference to be Called at Madrid Ford Wants to to Confine War to Present Limitations is Favored

TO GET GERMAN ASSURANCES

Would Seek Promise of Berlin, American and Other Neutral Rights Wouldn't be Harmed

TO AVOID AUSTRIAN BREAK

Effort Made to Have Her Modify Endorsement of Germany's Barred Zone Order

> By ROBERT J. BENDER (U. P. Staff Correspondent.)

Washington, Feb. 9.-While the United States hopes almost against hope and prepares for any eventuality, a move to keep this country- at peace is being made. Efforts are being made by neutrals to have a conference called at Madrid with a view to confining the war to its present limitations and if possible to get assurances from Germany that she will not harm American or other neutral rights.

Efforts were being made by this government to avoid a break with Austria by having Austria modify her endorsement of Germany's barred zone order.

German Ambassador Von Bernstorff, is expected to attempt to preserve peace after he reaches Berlin, provided, of course, that the overt act has not been committed by Germany.

GERARD AND STAFF

American and Red Cross Officials in Berlin Will Leave in Special Train in Two Sections

SPANISH TO REPRESENT U. S.

By CARL W. ACKERMAN (U. P. Staff Correspondent.)

Berlin, Feb. 9.—All preparations for departure from Berlin of Ambassador Gerard and his staff, American Red Cross officials and consular officials were completed today.

A special train in two sections will probably leave Berlin tomorrow for Berne. On the same day the Spanish ambassador in Berlin will formally begin representation of American interests.

Gerard was notified last night that his passports were available after official information had been received that safe passage had been assured Ambassador Von Bernstorff by England and France.

Note Says Wilson's Plan is Contrary to the Swedish Policy

(By United Press.)

Stockholm, Feb. 9 .- Sweden's disagreement with America's plea to neutrals to join against Germany was expressed in a note today sent to Washington.

The proposal, the note declared, indicates its aim to shorten the war but the method suggested by the United States to achieve this end is absolutely contrary to the principles which have hitherto guided Sweden's policy.

United States Demands to Know Why Gerard Was Detained

(By United Press.)

Washington, Feb. 9-The state departure of Ambassador Gerard from Berlin was delayed.

This action was taken through the Swiss minister. Secretary Lansing expressed himself as doubtful whether Germany intentionally held Gerard in Berlin.

HEARING THIS AFTERNOON

Judge Clark of Public Service Commission Here—Gas Companies Represented

Judge Clark of the Public Service Commission heard the petition of J. Harvey Snyder for an indeterminate permit to operate a gas well this afternoon. The hearing was held in the circuit court room and was attended by city officials and representatives of other gas companies.

At the conclusion of the hearing Judge Clark announced that the commission would grant the permit but would leave it to the city council to confine the activities of Snyder and designate the territory he was to serve from this gas well.

Snyder's gas company has one lone well. The well was purchased from sired to sell the gas to get his money out of the property. The city council took the position that they did not and believed that Snyder should confine his activities to a territory west of Main street and south of First

Report Favoring Bill Taxing Corporations and Franchises Starts Hot Fight

(By United Press.)

Indianapolis, Ind., Feb. 9.—Governor James P. Goodrich signed the Wright state-wide prohibition bill at 2:05 o'clock this afternoon .

The law will make Indiana dry after April 2, 1918. The bill was signed in the presence of many dry workers. Signing of the bill was postponed until afternoon when the measure had not reached the governor's office from the House at 12:30 o'clock. Scores of prohibition workers had waited for an hour and a half for the signing which was to have taken place at eleven o'clock.

The governor had nine pens with which to attach his signature.

Most of the morning session of the house was taken up with the debate on the Thornton bill providing for want the improved streets bothered the purchase of the old state capitol building at Corydon. A divided report on the bill was presented by the house committee, the majority fav oring pasage.

Mercury Drops to Two Degrees Below Zero at Seven O'clock, According to Weather Observer

CONTINUED COLD TODAY

The weather man made good his prediction for a cold wave, but the real for sure cold did not arrive until early this morning. A drop of thirty-six degrees was recorded at the weather station at Mauzy. At daylight this morning the temperature was four above zero. At seven o'clock this morning just as the sun was rising the temperature took a drop and reached its lowest mark of the day, going to two below zero.

The indications were for continued cold tonight. A cold wind added to the discomfort of those outdoors today and the weather man stated that this wind fell. Slowly rising temperature is predicted for tomorrow.

The highest point reached yesterday by the mercury was 34 degrees above zero. At six o'clock last night the snow had stopped falling and the thermometer registered 20 above. The drop was gradual throughout the night and then came the sudden drop to two below zero at seven o'clock this morning.

stamps in Indiana again is disclosed eague club-or any minor league by the introduction in the state senate of a bill to repeal the present trading stamp law and substitute a law to legalize the use of such stamps, under a provision to license the persons engaged in the trading stamp business.

The law which was passed by the 1915 legislature served to stamp out effectively the trading stamp business here as well as elsewhere in the state because the statute provides that every "persons, firm or corporation, who shall sell or furnish for use in, with or for the sale of any goods, * and trading stamps, coupons or other similar devices" shall pay a license fee of \$1,00 to the county treasurer who shall grant a license to sell or furnish for one year, such rading stamps.

The argument of those opposed to the trading stamp business was that it added extra cost to merchandise and that it was no advantage to any one merchant because his competitors could also contract with trading stamp companies. The license fee was made prohibitive purposely and had the desired effect.

The first sections of the trading stamp bill now before the legislature would seek to legalize trading stamp issuance and to provide for the payment of a \$100 license fee annually strategy of the Petersburg campaign to the treasurer of state by individuals, firms, unincorporated associa tained for a long time an alliance Lee's surrender to Grant, and the af- tions, or corporations who would en-

TAKE SALTS TO

Bladder troubles you-Salts is fine for Kidneys.

Meat forms urie acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dixpains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a table-spoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, com-bined with lithia, and has been used for

The meeting was a novel / one and quite a success. The first part of the afternoon was given over to the Willing Worker's when the ladies spent the time in knotting comforts. Later a program was given by the C. W. B. M. Mrs. McClanahan was leader for this feature of the meeting, also reading the scripture selection. Mrs. Phillips led the members in prayer. The general subject of the afternoon was "Porto Rico" dealing with it from a missionary standpoint. Mrs. Ralph Bowen read an interesting paper on the country itself; and Mrs. Grace Dawson spoke on "Superstitions in Porto Rico." Refreshments of crackerjack and bananas was served by the hostess during the social hour. The next meeting of the C. W. B. M. will be at the home of Mrs. Grace Dawson on March 2nd while the Willing Workers will meet again on March the 8th with Mrs. Frank Crist.

Don't Wait for the Cold to Settle

The wise way is to use Turpo before the cold settles. But if you've let it go too longuntil your throat is raw and your chest is heavy with congestion-rub on Turpo, and rub it IN. Pin on a warm flannel bandage. And take a good cathartic. Turpo applied in the nostrils will clear your head and ease your breathing.

Use Turpo also for catarrh: for neuralgia; for cuts and burns and bruises. It quiets pain and breaks congestion. Buy Turpo of your Druggist. 25c: 50c: \$1.00.

Papal Astronomer Attracted Attention of Rome Police by His

Actions.

IN SIGNALING THE ENEMY

(By United Press.)

Rome, Jan. 15 .- (By Mail) -- Another American was suspected as a spy here today. He is the Rev. P. J. G. Hagen, S. J., the papal astronomer, formerly of Washington, D. C.

For weeks the police have observed "suspicious activities" in the Vatican gardens. Every night a blackrobed figure appeared for a time on a bridge stretching between two towerlike ballding.

The stranger made wierd motions toward the heavens. Afterwards, he disappeared into one of the stractures. A inysterious noise generally followed his entrance.

The police believed the clergyman was signaling the enemy. Their investigation introduced them to Father Hagen. Official documents showed the 70-year-old astronomer to be an American citizen. The "suspicious activities" were only his astronomical observations.

BETTY AND HER DADDY

It's two in the morning and the house is cold. Out of the darkness comes a cry-

"Daddie Daddie! Oh, Daddie!"

And Daddie is up. He doesn't mind the cold if the little hand that pats him is warm. That was ten years ago, happy, short years, working for

the baby and her mother.

It is two in the morning again-and out of an awful darkness comes the cry-

"Daddie! Daddie! Oh, Daddie!"

But Daddie will never jump up again-and he doesn't know that Betty's hands are warm over his cold ones.

The Massachusetts Mutual Life Insurance Company of Springfield, Mass., cannot replace Daddie, but they can provide for a monthly reminder of him. Come and talk it over.

Expert Has Figured it Out That Increase is Between \$150 and \$200

\$10 YEAR MORE FOR MILK

Even Price of. Perambulators Has Gone up-Rooseveltian Theory Not Encouraged

(By United Press.)

London, Jan. 31—(By Mail)—Babies are between \$150 and \$200 costlier in England today than they were before the war.

An expert has just figured out what it means for British fathers and mothers to have babies in war

On the annual basis it costs about \$10 more for an infan't milk than two years ago. Baby food costs two cents more a feed and even bottles are up a third. Methylated spirit to heat the infant's night food is now more than double the normal price.

Infantile garments cost 33 1/3 per cent more just now if they are made of wool; if cotton or woolen mixture its an additional 25 per cent and 15 per cent if merely cotton. The expert suggests that the high price of infant's long frocks, flannels, cot blankets, wooly shawls, vests, shoes, the nurses baby bath paraphanalia is enough to make ordinary parents gasp. Even the bath costs a third more, the bath thermometer is up 25 per cent and toilet powder has skyrocketed 100 per cent.

If the baby is ill, medicines, beginning with good old castor oil, are doubled in price. Olive oil is up fifty per cent, glycerine 15, lanoline 300 and even the price of dill water is not what it used to be.

Perambulator that sold for \$40 at the beginning of the war, now cost the enduring parent about \$55. A cot he might have bought for \$5 two years ago now takes about \$8 of his bankroll. When he has provided the cot he can buy the mattress at one and one-fourth the original cost. High chairs cost \$5 now. They used to cost \$4.

Nurses in England now do their work for \$50 additional to the usual wage. The nurses' food costs an additional 33 1/3 per cent.

Thus the Rooseveltian theory isn't encouraged, the infant expert ob-

Has Started Fight on Gentry Measure to Permit Railroads Employing Deputy Sheriffs.

TO QUELL STRIKE TROUBLED

(By United Press.)

Indianapolis, Ind., Feb. 9.—Organized labor in Indiana has started a fight on the bill introduced in the house by Representative Gentry of Bloomington which would permit railroads to hire men who would be empowered with the duties and authority of municipal police and deputy sheriffs on railroad property. The governor, under the provision of the bill, would be allowed to appoint one man for every five miles of railroad track owned by the railroad companies. The railroads would pay the men and reserve the right to discharge them.

Representatives of organized labor declare that the railroads want the bill passed so that they would be able to quell strike troubles through the aid of deputized employes. They line. claim that if the bill is passed, it will be a short time until other boxing game will be made in Gary corporations will ask that the sar

The Oldest Car in the Show ---Yet the Most Interesting

ISN'T IT REMARKABLE how the crowds linger around that wonderful old Reo the Fifth chassis, study it point for point, inquire, admire, go away and compareand inevitably drift back again?

ISN'T IT A TRIBUTE to Consistency of Policy-to Good Intent; to Sound Engineering; to Quality of Workmanship; and finally, to Reo service—the way they pay homage to that Reo the Fifth?

IT ISN'T NOVEL in the sense that some of the sensationally new inventions are.

THAT STRIPPED REO chassis has been a feature of every national automobile show for now eight successive seasonsin practically its present form.

JUST REFINED and improved in minor details from year to year (yes, month to month, for we Reo Folk do not make "season models" nor wait till just before Show-time to make changes. We make them any time their need is apparent-or we learn how):-

AS WE WERE SAYING: that Reo chassis has been a feature—yes, the feature-of the Show for several years -yet its popularity is greater now than ever, if crowds are any criterion.

JUST GOES TO SHOW that people are learning—that experience does teach. Experienced motorists, the seasoned Old Timers, are not looking for a car that is "different" but for one that is

AND THEY'VE FOUND that kind of car in Reos.

THE NEW REO SIX is beginning to rival the great Reo the Fifth in popularity. It will be a strong rival when there are as many in the hands of owners.

AS IT IS, REO the FIFTH has a tremendous advantage over the Six-more than one hundred thousand owners are singing its praises daily and hourly, while less than twenty thousand as yet know the Reo Six at first hand.

BUT SHE'S GAINING—just as rapidly as we can make them.

OF COURSE WE DON'T try to make all the automobiles-only the best ones. So naturally there's always an over-demand for Reos, all Reos, trucks as well as pleasure cars.

BUT WE WILL make fully twice as many Sixes the coming year—so next show time Reo the Fifth, that "incomparable" Four, will have to look to her laurels!

BUT BLESS YOU, no other than a Reo could ever hope to match a Reo either in popularity or performance!

PAID YOUR RESPECTS YET?-you owe it to yourself to do so. See the Reoscompare—then get your Reo while the getting's good. There won't be-never has been-enough to go around.

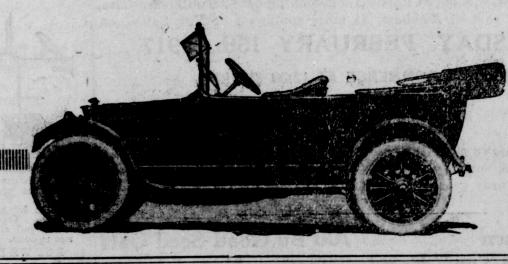

PRESENT PRICES apply only to orders for immediate delivery—we reserve the right to increase them without notice--may be compelled to at any time.

SO DON'T DELAY. Order and get your Reo now-if you can. If you delay there will be too many ahead of you. Today won't be a minute too soon. -

have resulted in a saving to the state list of his office. One of the two clerks has been dismissed, saving to \$1,500.

Roberts says he will have a bill iana office on a par with similar offices in other states. It will provide for the issuing of an annual report instead of a biennial report, so that statistics may be up to date and more valuable as basic figures. It will provide also for the issuing of bulletins and give the statistician authority to get information from any other state office when required. No increased appropriation or salary is to be asked.

Mr. Roberts has also perfected arrangements with the U. S. Depart-Labor Department and the Federal matters pertaining to labor in Indiana. The Federal Department agrees to extend franking privileges in matters pertaining to labor and Mr. Roberts says it is his intention to extend the services of the State Labor Department to the smallest units in the rural districts as well as the larger cities.

INDIANA PESTS.

BY R. E. SNODGRASS. Assistant State Entimologist.
(Written for United Press.)

They killed Socrates with a cup of hemlock juice but if Socrates had not lost all of his teeth, they might have gotten him with a poisoned apple. This shows how elever rogues are in accomplishing their ends, but from their methods, wise people may learn something for better purposes.

For example if you want to kill an insect that lives on the sap of plants, you cannot do it by putting poison on the deaves. The aphids, or plant lice and the scales have no jaws: they suck up the sap from the interior of the leaves or stems, through a piercing beak. But you cannot poison the sap of a living plant without injury to the plant.

Therefore these pests must be destroyed with a spray of some material that will kill by contact with their bodies. Such are lime-surphur, oil phate, sold under various trade names, is used for plant lice on scales in summer, because it does no cannot kill any bug not touched by injury to the foliage. These sprays

In order to spray intelligently it is necessary to know the feeding habits of the insects. If they suck the sap from beneath the surface, use a contact poison, if they eat away pieces of a plant, give them a stomach poison.

CONDUCTS AMATEUR BOUTS

Was at One Time a Pretty Fair Welterweight and Could Stand Punishment.

BY H. C. HAMILTON. (U. P. Staff Correspondent.)

New York, Feb. 9 .- A long time ago, when boxers were getting no more money for the labors than they were entitled to, there was a budding young lightweight hanging around Omaha, Kansas City and St. Joseph, Mo. He grew into a welterweight, but he persisted in just hanging

This youth never set the world afire with his accomplishments, but it was said he could take more punches and come back quicker than any man alive. It also was said of him that a fairer, cleaner boxer never stepped under the ropes of a ring. He fought Clarence English, a boxer of just the opposite type, and Clarence admitted he had taken a big job on his hands in punishing the youngster. English, at that time, was one of the best lightweights in the game-and one of the trickiest.

Time went on and the youth gradually quit fighting. He couldn't whip one one who amounted to anything. Then one day he listened to a street evangelist and a new fight was on. Rev. Kid Wedge started from there and he has been knocking out the devil ever since.

Recently there came the news from Rhinelander, Wis., that Kid Wedge had applied for and been granted a license to conduct boxing bouts in a church of which he was pastor. Rev. Wedge, himself, stated that he was going to teach the young boys in his Sunday schools how to box. Spectators and boxers will be members of the church and the Sunday school.

Children's President of Argentine Refuse to Live in Mansion Provided by Government.

GIVES SALARY TO CHARITY

(By United Press.)

Buenos Aires, Jan. 20 .- (By Mail) -Through Minister of the Interior Gomez, President Irigoyen today served notice on congress that he proposes to lead as unostentatious a private life as he likes even if he is chief magistrate.

Criticism of some of his personal economies developed in connection with the budget discussion in the chamber of deputies. Although the president has assigned all his salary to charity, the critics expressed the opinion that so rich a man ought, as president, to assume somewhat more state, considering the official position he occupies.

"President Irigoyen," said Gomez, 'assumed his great responsibilities at the call of the people but, as presivate citizen."

The President still refuses to live in the Casa Rosada, or Argentine White House, which he has turned into suites of government offices, but makes his home in his own very modest residence, with his daughter, only two or three servants and practically no company.

Senator Beardsley Says Many Supplant Corner Store and Urges Passage of Law.

WILL HOLD PUBLIC HEARING

Indianapolis, Ind., Feb. 9.—Physicians are about the worst offenders against the rules of sanitation, according to Senator Beardsley. The senator contends that physician's offices should be kept free from germs. In many small cities, senator states, the physicians' offices have supplanted the corner store as the gathering place for the idle per-

A public hearing will be held in the senate chamber tonight on the senator's bill which would require physicians to keep their offices sanitary and clean.

The bill would also prohibit doctors from using a low grade of drugs in mixing medicines. Another provision of the measure would be to bring peddlers and grocers under the provisions of the pure food and

Blushing Benny is Spending a Quiet Cold Winter With Very Little Publicity.

NO INTEREST IN HIS AVERAGE

Fans Don't Worry Whether he is Going to Bat .300 or 6 and Seven-Eighth.

> (U. P. Staff Correspondent.) BY H. C. HAMILTON.

New York, Feb. 9.—Blushing Benny Kauff, the youth they were all watching and wondering about a year ago, is spending a very quiet cold spell compared with the turbulent session he passed through in 1915. There isn't a flicker of interest in whether the Giant outfielder will cleut for a .300 average or 6 7/8 next summer.

Ben is spending the winter in Ohio and Indiana, chasing around in a big green automobile and having a good time, but he is fighting shy of the interview columns.

This probably means a lot to Kauff. He isn't going to have a top-heavy mark to aim at when he starts going at the next bell-ringing. He's going to be just plain Benny Kauff, with a job to hold, and with some real ability packed away in his little body. He isn't going up there feeling that every fan expects to see him knock the ball out of the park at every ef-

It isn't a loss of confidence; it's the descent of an overplayed star, one who was eager to make good, and overstepped himself in trying to live up to something he couldn't touch.

John McGraw and many other level-headed engineers in baseball believe Benny will be the real goods when the time comes for compilation of National league averages about a year hence. McGraw, especially, believes Kauff is as good a hitter as there is in the National league. This fact, he thinks, coupled with other support that will be given from other members of the new Giants, will give Benny an impetus in the spring that

will be hard to stop.

As has been noted many times before, Benny spent a great deal of time last summer whacking away at unhitable things. Late in the season he began to quit this and found out how much it helped. He will go in there next spring convinced that it's best, and he'll take his time. Everything looks favorable to a good year for the former Federal league star.

Jimmie Johnston Comes Forward and Announces That Joe is Lightweight Champ.

HISTORY SLIGHTLY

Says Willie Ritchie Has Outgrown His Class and Then Cites Some History

BY. H. C. HAMILTON. (U. P. Staff Correspondent.) New York, Feb. 9.—Jimmie John-

on, who a long time ago ran the fight club at Madison Square Garden, jumped right out the other day with a claim on the American lightweight championship for his protege. Joe Welling.

He claimed it on the basis that Willie Ritchie has outgrown the class and that there isn't another 133ponder in the game with the class of Welling. Jmmie announced that Welling stood ready to defend his title against all challengers.

He went way back into history and dug up the time when Joe Gans then the lightweight champion through his victory over Frank Erne, refused to meet Jimmie Britt in California. The championship, he contends, went to Britt by forfeit.

Battling Nelson won from Gans at 133 pounds, he points out and then shows that Ad Wolgast won his title at the same weight. He concludes by saying these two are hasbeens and

that Welling is the logical successor. Not only has Johnston mixed his history in a thrilling manner, but he has overlooked the fact that 133 pounds is not and never has been a standard weight for lightweights.

As a matter of fact, Jimmie Britt mever attained the championshp of anything except maybe a county or so in California, although he was quite a scrapper when he was at his best. In addition Gans weighed something near 135 pounds when he wrestled the title from Erne.

Way back in the days of the old London Prize Ring rules articles of agreement between boxers stipulated that the lightweight poundage should be 133, give or take two pounds. The title was defended by several champions, with a variety of poundage, running from 133 to 138.

Willie Ritchie lost his title to Freddie Welsh, with an agreement which called for 135 pounds eight hours before the boat. The National Sporting Club rules call for that stipulation and it would have been compulsory for the boys to weigh in at that figure or lower. It could not have been fixed at a lower figure.

Welling weighed 135½ pounds re- negro lghtweight.

Due to Radical Program Uprising Was Feared But There is Not Chance Now.

(By United Press.)

Buenos Aires, Jan. 15 .- (By Mail) -As an expert on revolutions-for he himself spent a large part of his . life as a conspirator and revolutionist-President Ilrigoven has been quietly taking precaution to prevent any governmental overturning during his own 6-year term. And he did it so eleverly that only now is the publie beginning to realize it.

There have been predictions that his radical program would lead to a revolutionary outbreak. Revolutionary methods have been openly advocated in connection with some of the recent strikes in Argentina.

The president's theory is that he can hold his own while the army is with him. On a peace basis it is only about 17,000 strong but even this s not so bad, in a country of 7,000,-000 to 8,000,000 population.

Irigoyenists were not promoted. So when he assumed office as president, Irigoven found the army top-heavy with men in the chief commands who were his political opponents.

Nobody noticed it at first, but he had hardly taken the oath of office before he began detaching these officers from positions where they really controlled any men and landing them in clerical positions in the capital or assigning them simply to "await orders." In their absence their underlings were lifted into the higher ranks either by means of out-and-out promotions of as "acting commanders."

AUSTRIAN BREAK DIOVA OT

Effort Made to Have Her Modify Endorsement of Germany's Barred Zone Order

By ROBERT J. BENDER (U. P. Staff Correspondent.)

Washington, Feb. 9.-While the United States hopes almost against hope and prepares for any eventuality, a move to keep this country- at peace is being made. Efforts are being made by neutrals to have a conference called at Madrid with a view to conflining the war to its present limitations and if possible to get assurances from Germany that she will not harm American or other neutral rights.

Efforts were being made by this government/to avoid a break with Austria by having Austria modify her endorsement of Germany's barred zone order.

German Ambassador Von Bernstorff, is expected to attempt to preserve peace rafter he reaches Berlin, provided, of course, that the overt act has not been committed by Germany.

Mayor Bebout and the city council coal yard for the benefit of the people of the city and two cars of coal have been ordered for the experiment. Delivery of the cars is expected by Monday and not later than Tuesday.

The coal will be Indiana mine run and will sell at \$4.25 a ton. The continued cold weather and the inability the council and mayor to make the office is in the council chamber over The coal will be sold at the city water and light plant.

The coal dealers of the city have proves successful, it will be contincoal will be limited to not over one ton to a customer and is to be sold for eash. The city will not make deliveries. Less than a ton can be bought, but not over a ton will be sold to any one person. The coal is to be sold at actual cost.

This plan has been tried by other cities and found successful. People complained today about being unable to secure coal and also about the high prices. In order not to compete with the city coal dealers they were consulted and had no objections to the city selling this coal.

The coal is to be secured from the firm supplying the city with coal under contract. The city officials vere in communication with the mining company today and the two cars were started at once for this city.

The city officials believe many people will take advantage of this opportunity. The coal is a good grade of the Indiana product and the price at \$4.25 a ton is cheaper than coal has been sold here all winter.

The case has been complicated beause of the trial here between Johnson and Gray in which Johnson recovered \$300 from Gray for malicious prosecuting.

A large part of yesterday was deoted to the reading of depositions and in placing the testimony at the Gray-Johnson trial before the jury. Miss Hogsett was expected to be recalled to the stand today by the plaintiff in rebuttal._

The case has attracted considerable attention locally because both parties are well known and because of the things involved. It has been several years since a suit of this kind was filed against an attorney. Gray practically alleges malpractice on the part of Mr. Gary, who was his attorney at the trial of the suit in which he was a defendant and Johnson the plaintiff.

The case has been in progress since Monday morning.

Walsh probably would be popular in Des Moines. He was a great pitcher, often a visitor to Des Maines with the White Sox, and often praised there. Preparations have been made for some time to land Walsh in a favorable community.

The deal also would be considered good step for Walsh. The Des Moines club is one of the few in the ancient Western league where money has not cozed out in huge gold instead of coming back the same way. Isbell won a pennant a few years ago and he had a fololwing to boast when he did it. He has _developed good ball players and has sold them for good prices.

George Mogridge, Paul Mauser and Lefty Thomas, three pitchers, are all productss of the Des Moines club. If Walsh, with the pitching skill he is known to possess, could develop a few of these, and could keep the popularity sign working on the turnstile as Isbell did, he would be well

Bill in Legislature Would Bring Back Practice to Rushville Stamped Out Two Years Ago

LICENSE FEE NOW \$1,000

Present Measure Provides for One of \$100 Annually to be Paid to Treasurer of State

That an ailtempt will be made to nake possible the use of trading stamps in Indiana again is disclosed by the introduction in the state senate of a bill to repeal the present trading stamp law and substitute a law to legalize the use of such stamps, under a provision to license the persons engaged in the trading tamp business.

The law which was passed by the 1915 legislature served to stamp out effectively the trading stamp busidess here as well as elsewhere in the state because the statute provides that every "persons, firm or corporation, who shall sell or furnish for use in, with or for the sale of any goods, and trading stamps, coupons or other similar devices" shall pay a license fee of \$1,00 to the county treasurer who shall grant a license to sell or furnish for one year, such trading stamps.

The argument of those opposed to he trading stamp business was that it added extra cost to merchandise and that it was no advantage to any one merchant because his competitors could also contract with trading stamp companies. The license fee was made prohibitive purposely and had the desired effect.

The first sections of the trading will minimum and the first sections of the trading will minimum and the first sections. in the play have their lesson for the would seek to legalize trading stamp The whole thing would be engineered Americans of today. Papal Astronomer Attracted Attention of Rome Police by His

Actions.

"IN SIGNALING THE ENEMY"

(By United Press.)

Rome, Jan. 15.—(By Mail)—Another American was suspected as a spy here today. He is the Rev. P. J. G. Hagen, S. J., the papal astronomer, formerly of Washington, D. C.

For weeks the police have observed "suspicions activities" in the Vatican gardens. Every night a blackrobed figure appeared for a time on a bridge stretching between two lowerlike balldugs.

The stranger made wierd, motions oward the heavens. Afterwards, he disappeared into one of the structures. A mysterious noise generally followed his entrance.

The police believed the elergyman was signaling the enemy. Their investigation introduced them to Father Hagen. Official documents showed the 70-year-old astronomer to be an American citizen. The "suspicious activities" were only his astronomcal observations.

BETTY AND HER DADDY

It's two in the morning and the house is cold. Out of the darkness comes a cry-

"Daddie Daddie! Oh, Daddie!"

And Daddie is up. He doesn't mind the cold if the little hand that pats him is warm.

That was ten years ago, happy, short years, working for the baby and her mother.

It is two in the morning again—and out of an awful darkness comes the cry-

"Daddie! Daddie! Oh, Daddie!"

But Daddie will never jump up again-and he doesn't know that Betty's hands are warm over his cold ones.

The Massachusetts Mutual Life Insurance Company of Springfield, Mass., cannot replace Daddie, but they can provide for a monthly reminder of him. Come and talk it over.

\$10 YEAR MORE FOR MILK

Even Price of Perambulators Has Gone up—Rooseveltian Theory Not Encouraged

(By United Press.)

London, Jan. 31—(By Mail)—Bapies are between \$150 and \$200 costier in England today than they were ર્રેક્સ લાકલા ભાગમાં before the war.

'An expert has just figured out what it means for British fathers and mothers to have babies in war

On the annual basis it costs about \$10 more for an infan't milk than two ears ago. Baby food costs two cents more a feed and even bottles are up a third. Methylated spirit to heat the infant's hight food is now more than double the normal price.

Infantile garments cost 33 1/3 per cent more just now if they are made of wool; if cotton or woolen mixture its an additional 25 per cent and 15 per cent if merely cotton. The expert suggests that the high price of infant's long frocks, flannels, cot blankets, wooly strawls, vests, shoes, the nurses baby bath paraphanalia is enough to make ordinary parents gasp. Even the bath costs a third more, the bath thermometer is up 25 per cent and toilet powder has skyrocketed 100 per cent.

If the baby is ill, medicines, beginning with good old castor oil, are doubled in price. Olive oil is up fifty per cent, glycerine 15, lanoline 300 and even the price of dill water is not what it used to be.

Perambulator that sold for \$40 at the beginning of the war, now cost the enduring parent about \$55. A cot he might have bought for \$5 two venus ago now takes about \$8 of his bankroll. When he has provided the cot he can buy the mattress at one and one-fourth the original cost. High chairs cost \$5 now. They used to cost \$4.

Nurses in England now do their work for \$50 additional to the usual wage. The nurses' food costs an additional 33 1/3 per cent.

Thus the Rooseveltian theory isn't encouraged, the infant expert ob-

Has Started Fight on Gentry Measure to Permit Railroads Employing Deputy Sheriffs.

TO QUELL STRIKE TROUBLED

(By United Press.)

Indianapolis, Ind., Feb. 9.—Orgapized labor in Indiana has started a fight on the bill introduced in the house by Representative Gentry of Bloomington which would permit railroads to hire men who would be empowered with the duties and authority of municipal police and deputy sheriffs on railroad property. The governor, under the provision of the bill. would be allowed to appoint one man for every five miles of railroad track owned by the railroad companies. The railroads would pay the ing held in the high school. . . men and reserve the right to discharge them.

The Oldest Car in the Show ---Yet the Most Interesting

ISN'T IT REMARKABLE how the crowds linger around that wonderful old Reo the Fifth chassis, study it point for point, inquire, admire, go away and compareand inevitably drift back again?

ISN'T IT A TRIBUTE to Consistency of Policy-to Good Intent; to Sound Engineering; to Quality of Workmanship; and finally, to Reo service—the way they pay homage to that Reo the Fifth?

IT ISN'T NOVEL in the sense that some of the sensationally new inventions are.

THAT STRIPPED REO chassis has been a feature of every national automobile show for now eight successive seasons in practically its present form.

JUST REFINED and improved in minor details from year to year (yes, month to month, for we Reo Folk do not make "season models" nor wait till just before Show-time to make changes. We make them any time their need is apparent-or we learn how):-

AS WE WERE SAYING: that Reo chassis has been a feature—yes, the feature—of the Show for several years —yet its popularity is greater now than every if crowds are any criterion.

JUST GOES TO SHOW that people are learning that experience does teach. Experienced motorists, the seasoned Old Timers, are not looking for a car that is "different" but for one that is

AND THEY'VE FOUND that kind of car

THE NEW REO SIX is beginning to rival the great Reo the Fifth in popularity. It will be a strong rival when there are as many in the hands of owners.

AS IT IS, REO the FIFTH has a tremendous advantage over the Six-more than one hundred thousand owners are singing its praises daily and hourly, while less than twenty thousand as yet know the Reo Six at first hand.

BUT SHE'S GAINING-just as rapidly as we can make them.

OF COURSE WE DON'T try to make all the automobiles-only the best ones. So naturally there's always an over-demand for Reos, all Reos, trucks as well as pleasure cars.

BUT WE WILL make fully twice as many Sixes the coming year-so next show time Reo the Fifth, that "incomparable" Four, will have to look to her laurels!

BUT BLESS YOU, no other than a Reo could ever hope to match a Reo cither in popularity or performance!

PAID YOUR RESPECTS YET?-you owe it to yourself to do so. See the Reoscompare then get your Reo while the getting's good. There won't be hever has been-enough to go around.

PRESENT PRICES apply only to orders for immediate delivery-we reserve the right to increase them without noticemay be compelled to at any time.

SO DON'T DELAY. Order and get your Reo now-if you can. If you delay there will be too many ahead of you. Today won't be a minute too soon.

Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets, you will know them by their olive color. These tablets are wonder-workers on

the liver and bowels, which cause a nor-mal action, carrying off the waste and

poisonous matter in one's system.

If you have a pale face, sallow look dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out
of sorts, inactive bowels, you take one
of Dr. Edwards' Olive Tablets nightly
for a time and note the pleasing results.
Thousands of women as well as men
take Dr. Edwards' Olive Tablets—the

successful substitute for calomel—now and then just to keep in the pink of con-dition. 10c and 25c per box. All druggists.

CONDUCTS AMATEUR BOUTS

Was at One Time a Pretty Fair Welterweight and Could Stand Punishment.

BY H. C. HAMILTON. (U. P. Sinff Correspondent.)

New York, Feb. 9.-A long ngo, when boxers were getting no more money for the labors than they were entitled to, there was a budding young lightweight hanging around Omaha, Kansas City and St. Joseph, Mo. He grew into a welterweight, but he persisted in just hanging

This youth never set the world afire with his accomplishments, but it was said he could take more punches and come back quicker than any man alive. It also was said of him that a fairer, cleaner boxer never stepped under the ropes of a ring. He fought Clarence English, a boxer of just the opposite type, and Clarence admitted he had taken a big job on his hands in punishing the youngster. English, at that time, was one of the best lightweights in the game-and one of the trickiest.

Time went on and the youth gradually quit fighting. He couldn't whip one one who amounted to anything. Then one day he listened to a street evangelist and a new fight was on. Rev. Kid Wedge started from there and he has been knocking out the devil ever since.

Recently there came the news from Rhinelander, Wis., that Kid Wedge had applied for and been granted a license to conduct boxing bouts in a church of which he was pastor. Rev. Wedge, himself, stated that he was going to teach the young boys in his Sunday schools how to box. Spectators and boxers will be members of the church and the Sunday school.

GIVES SALARY TO CHARITY

(By United Press.)

Buenos Aires, Jan. 20.—(By Mail) -Through Minister of the Interior Gomez, President Irigoyen today served notice on congress that he proposes to lead as unostentatious a private life as he likes even if he is hief magistrate.

Criticism of some of his personal economies developed in connection with the budget discussion in the chamber of deputies. Although the president has assigned all his salary to charity, the critics expressed the opinion that so rich a man ought, as state, considering the official position he occupies.

Home of Jiffy-Jell

To All Women

Many women's magazines for January and Febtuary contain a full-page ad on Jiffy-Jell in colors. Each ad contains a coupon, good at your grocery for a full size package free.

Cut out the coupon and present it to your grocer. We will pay him for the package that he gives you.

We are making this offer in millions of homes, to let Jiffy-Jell tell its own story. Just serve it for one dinner as our treat.

A Delightful Surprise

Jiffy-Jell will prove a delightful surprise. It is made of a rare-

grade gelatine, costing twice as much as the common. /

The flavors are made from the fruit itself. They are made by concentrating the fresh fruit juice. They are very different from artificial flavors.

Then each flavor comes sealed in a vial. It keeps its freshness until used.

Flavors which come mixed with the gelatine powder never keep their zest, as these do.

Then the boiling water, used to dissolve Jiffy-Jell, doesn't scald the flavor. The flavor is added from the vial when the jell has partly cooled.

So you get in Jiffy-Jeil the flavor of fruit that is newly picked. You

never have tasted a jelly dessert that compares with it.

First Dinner Free

If you present the coupon you will get your first serving free. It will give you a new conception of these ideal fruit desserts. It will bring you an extragrade gelatine, the finest you ever tasted. It will bring you fruit flavors which taste like crushed fruit. It will open the

way to countless new delights.

Jiffy-Jell comes in seven

flavors Raspberry, Strawberry, Cherry, Orange, Lemon, Limeand Pineapple. The price when you buy it is two packages for 25c. A package makes 6 or 8 dishes.

Blushing Benny is Spending a Quiet Cold Winter With Very Little Publicity.

NO INTEREST IN HIS AVERAGE

Fans Don't Worry Whether he is Going to Bat .300 or 6 and Seven-Eighth.

> (U. P. Staff Correspondent.) BY H. C. HAMILTON.

New York, Feb. 9.—Blushing Benny Kauff, the youth they were all watching and wondering about a year ago, is spending a very quiet cold spell compared with the turbulent session he passed through in 1915. There isn't a flicker of interest in whether the Giant outfielder will cleut for a .300 average or 6 7/8 next summer.

Ben is spending the winter in Ohio and Indiana, chasing around in a big green automobile and having a good time, but he is fighting shy of the interview columns.

This probably means a lot to Kauff. He isn't going to have a top-heavy mark to aim at wlien he starts going at the next bell-ringing. He's going to be just plain Benny Kauff, with a job to hold, and with some real ability packed away in his little body. He isn't going up there feeling that every fan expects to see him knock the ball out of the park at every ef-

It isn't a loss of confidence; it's the descent of an overplayed star, one who was eager to make good, and overstepped himself in trying to live up to something he couldn't touch.

John McGraw and many other level-headed engineers in baseball believe Benny will be the real goods when the time comes for compilation of National league averages about a year hence. McGraw, especially, believes Kauff is as good a hitter as WEBB BROS., Clerks. there is in the National league. This fact, he thinks, coupled with other support that will be given from other members of the new Giants, will give Benny an impetus in the spring that

will be hard to stop.

As has been noted many times before, Benny spent a great deal of time last summer whacking away at unhitable things. Late in the season he began to quit this and found out how much it helped. He will go in there next spring convinced that it's best, and he'll take his time. Everything looks favorable to a good year for the former Federal league star.

Former 'Soldiers of Sea" Hear From Friends in the Service.

Washington, Feb. 9-Calling trained men to the colors by wire is the novel method adopted by the United States Marines who, today, are sending hundreds of telegrams to former "soldiers of the sea" services are especially desired in the face of a national crisis.

Telegrams sent from Headquarters to individual ex-Marines read as follows: "Marine Corps needs her trained soldiers. Please communicate with nearest recruiting station. If you canont return to colors yourself. please secure one recruit for Marine Corps. The telegram is signed by Brigadier General John A Lejeune.

Jimmie Johnston Comes Forward and Announces That Joe is Lightweight Champ.

HISTORY SLIGHTLY

Says Willia Ritchie Has Outgrown His Class and Then Cites Some History

BY. H. C. HAMILTON. (U. P. Staff Correspondent.)

ew York, Feb. 9.—Jimmie Johnwho a long time ago ran the elah at Madison Square Garden, 📜 Jumped right out the other day with a claim on the American lightweight championship for his -protege, -Joe 🔚 Welling.

He claimed it on the basis that Willie Ritchie has outgrown the class and that there isn't another 133ponder in the game with the class of Welling. Jmmie announced that Wel-Eng stood ready to defend his title against all challengers.

He went way back into history and dug up the time when Joe Gans then the lightweight champion through his victory over Frank Erne, refused to meet Jimmie Britt in California. The championship, he contends, went to 📜 Britt by forfeir.

Battling Nelson won from Gans at 🔚 133 pounds, he points out and then shows that Ad Wolgast won his title at the same weight. He concludes by saying these two are hasbeens and that Welling is the logical successor.

Not only has Johnston mixed his history in a thrilling manner, but he has overlooked the fact that 133 pounds is not and never has been a standard weight for lightweights.

As a matter of fact, Jimmie Britt 💻 mever attained the championshp of anything except maybe a county or so in California, although he was 📜 quite a scrapper when he was at his best. In addition Gans weighed something near 135 pounds when he wrestled the title (from Erne.

Way back in the days of the old London Prize Ring rules articles of agreement between boxers stipulated that the lightweight poundage should be 133, give or take two pounds. The title was defended by several champions, with a variety of poundage, running from 133 to 138.

Willie Ritchie lost his title to Freddie Welsh, with an agreement which called for 135 pounds eight hours before the beat. The National Sporting Club rules call for that stipulation and it would have been compulsory for the boys to weigh in at that figure or lower. It could not have been fixed at a lower figure.

Welling weighed 1351 pounds re-

Argentine President Takes Enemies Out of Army and Puts in His Friends.

THUS HAS IT BACK OF HIM

Due to Radical Program Uprising Was Feared But There is Net Chance Now.

(By United Press.)

Buenos Aires, Jan. 15.—(By Mail) -As an expert on revolutions—for he himself spent a large part of his life as a conspirator and revolutionist—President Irigoyen has been quietly taking precaution to prevent any governmental overturning during his own 6-year term. And he did it so eleverly that only now is the public beginning to realize it.

There have been predictions that his radical program would lead to a revolutionary outbreak. Revolutionary methods have been openly advocated in connection with some of the recent strikes in 'Argentina.

The president's theory is that he can hold his own while the army is with him. On a peace basis it is ony about 17,000 strong but even this is not so bad, in a country of 7,000,-000 to 8,000,000 population.

Long ago, when he was an antigovernment conspirator, Irigoyen won to his views the rank and file and lower grades; of commissioned officers. Government after govern ment answerers ook pains to see the

Irigoyenists were not promoted. So when he assumed office as president, Irigoyen found the army top-heavy with men in the chief commands who were his political opponents.

Nobody noticed it at first, but he had hardly taken the oath of office before he began detaching these officers (from positions where they really controlled any men and landing them in clerical positions in the capital or assigning them simply to "await orders." In their absence their underlings were lifted into the higher ranks either by means of out-and-out promotions of as "acting commanders."
